

About Our Facility

Our state of the art physical therapy facility is located at 333 E 56th Street New York, NY 10022 (between first and second avenue) in Manhattan's Midtown East.

As Coronavirus restrictions remain in effect we have closed our clinic to do our part to flatten the curve. While our clinic is closed, our therapists are working with patients from the comfort and safety of their homes. Our Virtual Visits provide the care they want and need without leaving your home. All you need is a Smartphone, Desktop Computer, Laptop or Tablet.

In the privacy of our offices we offer clients physical therapy programs which include Balance Training, Bikes, Biofeedback, Muscle Re-education, Cervical and Lumbar Traction, Electric Stimulation, Low Level LASER, Iontophoresis, Paraffin Wax, Pilates, Training, TENS, Treadmill, Ultrasound, pilates, massage and of course access to our pool.
