Huma Masood, Pilates Instructor

Huma started her fitness career about 18 years ago when she was asked to teach PE class in a high school in Manhattan. She was a PE teacher there but had a lot more fun teaching a fitness class. Shortly after she decided to seek the knowledge and education in fitness, physically, and anatomically.

After teaching for almost a decade and growing each year with new skills she now holds many fitness certifications (SFAA, AFAA Group Exercise, and Pilates Reformer). She teaches Bollywood dance and Strength training classes in addition to Pilates.

Her passion for learning and sharing is infinite. Her teaching style is addictive, easy to follow, effective, anatomical, and fun. She sets goals in her class every single visit and will surely have some time left for fun.

Huma's personality is friendly, charming, and outgoing. Her classes are filled with equal parts fun, work and burn. You will be taller.

Her favorite quote is "Each new day is a new opportunity to improve yourself. Take it. And make the most of it."
